This revised manual replaces all current manuals. The program is designed to monitor fulfillment of Purchase Order commitments, identify variances, and communicate compliance. We will work with you to eliminate the root cause of the variances, resulting in a benefit to both parties. This may involve site visits to our facilities in order to fully understand the impact of following our guidelines.

Please review this material carefully and do not hesitate to contact us should you have questions. For additional copies please contact our Corporate Vendor Standards Department at (785) 761-3406 and we will provide you with access to the manual on our corporate website. We look forward to partnering with you on this important process.
